## Incoming Mail Server

The screenshot shows the 'New Account' setup screen on an iPhone. At the top, the status bar displays 'MailTight', a Wi-Fi signal icon, the time '04:06 PM', and a battery icon. Below the status bar is a header with 'Cancel' and 'Next' buttons, and the title 'New Account'. The main section is titled 'Incoming Mail Server'. It contains three input fields: 'Host Name' with the value 'mail.mailtight.com', 'User Name' with the value 'jsmith@mailtight.com', and 'Password' which is masked with ten dots. A standard QWERTY keyboard is displayed at the bottom of the screen.

Select:

Host Name **mail.mailtight.com**

User Name: <username@domain>

Password: <registered password>

## Outgoing Mail Server

## Verifying...

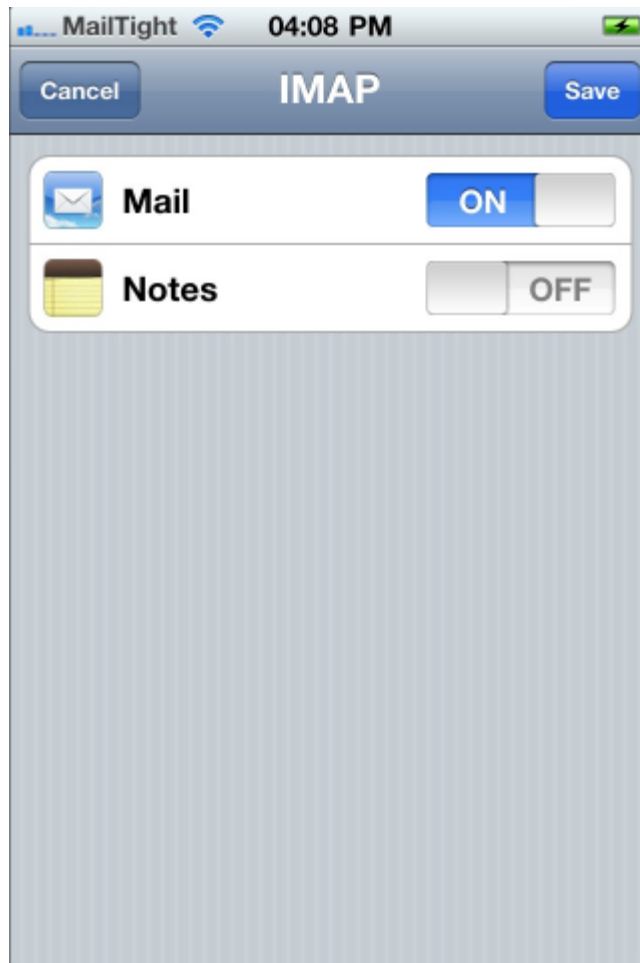

The image shows a screenshot of the MailTight app's verification screen. At the top, the status bar displays 'MailTight', a Wi-Fi icon, the time '04:07 PM', and a battery icon. Below the status bar is a blue header with a loading spinner and the word 'Verifying'. The main content area is divided into two sections: 'Incoming Mail Server' and 'Outgoing Mail Server'. Each section contains three fields: 'Description', 'Host Name', 'User Name', and 'Password'. The 'Description' field is labeled 'Mailtight'. The 'Host Name' for the incoming server is 'mail.maitight.com' and for the outgoing server is 'smtp.maitight.com'. The 'User Name' for both is 'jsmith@maitight.com'. The 'Password' fields are masked with blue dots.

| Section              | Field       | Value               |
|----------------------|-------------|---------------------|
| Incoming Mail Server | Description | Mailtight           |
|                      | Host Name   | mail.maitight.com   |
|                      | User Name   | jsmith@maitight.com |
|                      | Password    | .....               |
| Outgoing Mail Server | Host Name   | smtp.maitight.com   |
|                      | User Name   | jsmith@maitight.com |
|                      | Password    | .....               |

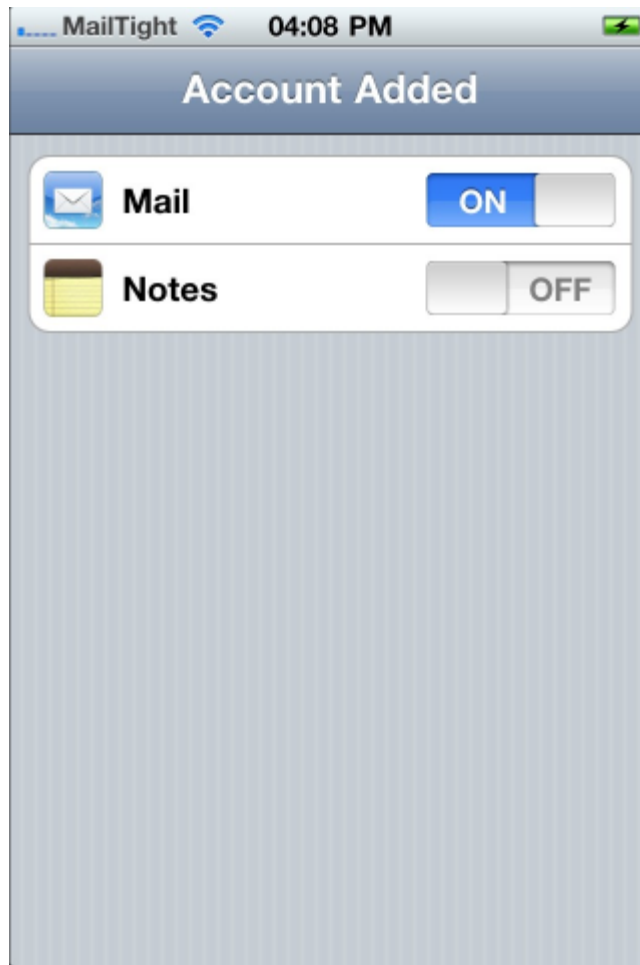

The next will verify the setting that we entered against our servers.

## IMAP - Save

Select: **Save**

## Account Added

Account Added will be displayed when the setup is complete.

## Inbox

The Mail Client InBox will display a Welcome Message. The Email account is ready to use.
